EDUCATION:

Bachelor of Science, Software Engineering Mutah University | 2022 – 2026

- **Honors:** Ranked 1st in Major (2024-2025); Honors Board member.
- **Cumulative GPA:** Excellent.

SKILLS:

- **Core Languages:** Java, C++, JavaScript, TypeScript, SQL.
- **Full Stack:** React.js, Spring Boot, SASS, Responsive Design.
- **Tools & Operations:** Git/GitHub, Postman, MySQL, SQL Server.

ACHIEVEMENTS & CERTIFICATES

- **Certifications:** HackerRank Verified Software Engineer, React, and Java.
- **Academic Ranking:** Ranked 1st in Major (Highest GPA) for the 2024–2025 academic year.
- **ICPC National Finalist:** Ranked in the Top 10% of teams nationally (Rank #32 in 2023, #33 in 2024).
- **Problem Solving:** Ranked #1 consecutively for three years at Mutah University; Participant in IEEEExtreme 18.0.

PROJECTS:

Quiz AI | React.js, API Design, State Management

- **UI/UX Design:** Designed an intuitive, chat-centric interface mirroring industry-standard LLM layouts to ensure a seamless user adoption curve and high usability.
- **State Management:** Architected global state using React Context API, effectively managing data flow across the application while eliminating prop-drilling.
- **User Feedback System:** Engineered comprehensive feedback loops, implementing loading skeletons, success indicators, and graceful error handling to maintain a smooth user experience during asynchronous operations.
- **Performance Optimization:** Developed a custom client-side caching mechanism to store fetched data locally, reducing server load and enabling instant content retrieval.

LANGUAGES:

Arabic – Native

English – Professional working proficiency
